Communication: Applied Communication Emphasis

2011-12

Associate in Arts Degree in Communication: Applied Communication Emphasis

The Communication Department's curriculum focuses on communication in a variety of settings -- interpersonal, small group, on-the-job, speaker-to-audience, via mass media and between cultures and nations. In addition, instruction is available in argumentation and debate and communication theory. Surveys show that most employers rank effective communication at the top of desired skills.

Careers in Communication

While communication is important in virtually any career, certain fields and positions are especially well-suited for communication graduates -- management, public information, broadcasting, personnel training, sales and law, marketing, advertising and many other related fields.
