Certified Nursing Assistant

2011-12

Skills Competency Award in Certified Nursing Assistant

The Certified Nursing Assistant (CNA) program prepares men and women to give basic nursing care under the direction of a licensed nurse. The focus of this program is on care of the elderly and includes both classroom and clinical experience. This program meets the requirements for the California Certified Nursing Assistant. Graduates are qualified to take the State Certification Exam.

Completion of CNA 103 (see Skills Competency Award for Acute Care CNA) prepares students for basic CNA care of patients in the acute care hospital setting.

The Home Health Aide (HHA) program builds upon the basic CNA training and prepares men and women to give care in a home situation.

Together the basic and acute care CNA courses and the HHA course take one college semester (17 weeks). CNA takes approximately 13 weeks, and HHA approximately 4 weeks.

Prerequisite for the HHA course is satisfactory completion of the CNA course, and/or previous certification as a CNA.

All students who successfully complete CNA may continue into the HHA class. Additional CNAs will be taken into the HHA class if space is available.
