Board of Trustees Santa Barbara Community College District Santa Barbara, California

Report on the Financial Statements

We have audited the accompanying financial statement of the Parking Fees Program, a program of the Santa Barbara Community College District (the District), as of and for the year ended June 30, 2018, and the related notes to the financial statement, which includes the Statement of Revenues and Expenditures, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Statement of Revenues and Expenditures based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Statement of Revenues and Expenditures referred to above presents fairly, in all material respects, the activity of the Parking Fees Program of the Santa Barbara Community College District for the year ended June 30, 2018, in accordance with accounting principles generally accepted in the United States of America.

Basis of Accounting

As discussed in Note 1, the Statement of Revenues and Expenditures presents only the activity of the Parking Fees Program, and is not intended to present fairly the financial position and changes in financial position of the Santa Barbara Community College District in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

NOTES TO FINANCIAL STATEMENT JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Santa Barbara Community College District's (the District) Parking Fees Program conforms to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA). The District Parting Fees Program accounts for the financial transactions in accordance with the policies and procedures of the California Community Colleges *Budget and Accounting Manual*.

Financial Reporting Entity

The audited statement includes only the activity of the Parking Fees Program of the District. This program was established to account for the receipt of parking fees and fines associated with parking facilities as defined in the joint use agreement with the City of Santa Barbara. This statement is not intended to present fairly the financial position and the changes in financial position of the District in compliance with accounting principles generally accepted in the United States of America.

Basis of Presentation

The accompanying statement has been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The accompanying statement includes only the Parking Fees Program revenues and expenditures. The Parking Fees Program is not a separate fund of the District and is integrated within the District's General Fund. Therefore, no balance sheet is presented in this report, as the Parking Fees Program does not have a self-balancing set of assets, liabilities, and net assets.

Basis of Accounting

The Parking Fees Program is maintained on the modified accrual basis of accounting. As such, revenues are recognized when they become susceptible to accrual, which is to say, when they become both measurable and available to finance expenditures of the current period. Expenditures are recorded at the time liabilities are incurred.

NOTE 2 - PARKING FEES PROGRAM AGREEMENT

The District has a joint use agreement (the Agreement) with the City of Santa Barbara for the use and maintenance of City-owned La Playa and Ledbetter Beach Parking Lots. The District maintains, operates, and controls the parking lots at least to the level currently maintained by the City. The District is entitled to 100 percent of revenue generated from parking permit sales. An accounting for La Playa Parking Lots' revenues and expenditures are made by the District to the City annually.
